

TLG.

–TeraLink Global–

COMPANY PROFILE

Trust – Building strong and transparent relationships with clients and partners.

Lead – Delivering innovative solutions and operational excellence.

Grow – Supporting sustainable growth for our partners, clients, and communities.

Commercial Registration No.: 71010

VAT No.: 300001274885

About Teralink Global

Teralink Global Multi-Activities Company is a Sudan-based enterprise established in 2025.

The company operates across multiple sectors including;

Pharmaceuticals.

Medical devices.

Healthcare supplies.

Industrial chemicals.

Spare Parts.

Water Treatment Systems.

Machinery.

We deliver reliable supply solutions and technical services to public and private sector clients.

Our Vision

To become a leading regional provider of integrated trade, healthcare, and industrial solutions recognized for reliability, quality, and strong international partnerships.

Our Mission

To deliver high-quality products, reliable services, and innovative solutions across healthcare, pharmaceuticals, industrial equipment, chemicals, and water treatment sectors while ensuring efficiency, sustainability, and customer satisfaction.

Integrity:

Transparency and accountability in all operations.

Quality Focus:

Commitment to international standards and continuous improvement.

Sustainability:

Delivering solutions that support long-term development.

Partnership:

Building strong collaborations with global suppliers and clients.

QUALITY CERTIFICATION

Teralink Global operates under a Quality Management System aligned with ISO 9001 standards.

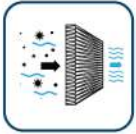

Our processes ensure consistent quality, reliable supply chains, and continuous improvement to meet customer expectations and international best practices.

Services

Pharmaceutical and Healthcare Products.

Cleanroom Solutions (HVAC system, HEPA Filters).

Industrial Chemicals and Raw Materials.

Industrial Machinery and Spare Parts.

Medical Equipment and PPE.

Water Treatment Units and Filtration Systems.

Laboratory Equipment and instruments.

Validation and Qualification Services.

**OUR
SERVICES**

Target Market

Hospitals and healthcare institutions.

Pharmaceutical companies and Distributors.

Industrial and manufacturing sectors.

Government institutions.

Construction and infrastructure projects.

International companies and Development partners.

TeraLink Global Company (TLG)

Pharmaceutical & Medical Devices Services Portfolio

We provide end-to-end solutions supporting Pharmaceutical manufacturers, Medical device companies, Laboratories, and Healthcare facilities—from concept to compliance.

1. Cleanroom Design & Construction (Turnkey Project Management)

Complete project execution from concept to commissioning. Design, build, and certify cleanrooms compliant with GMP, ISO, and regulatory standards.

2. Cleanroom Equipment Supply

Supply of HVAC systems, HEPA filters, pass boxes, laminar airflow units, and cleanroom furniture.

3. Cleanroom Validation & Certification

Testing including particle count, airflow visualization, pressure differentials, and recovery tests.

4. Pharmaceutical Raw Materials Supply

Sourcing and supplying high-quality APIs and excipients from approved manufacturers.

5. Reference Standards Supply

Provision of certified reference standards (USP, EP, BP) for analytical testing.

6. Laboratory Chemicals Supply

Wide range of analytical-grade and HPLC-grade chemicals for QC laboratories.

7. Laboratory Instruments Supply

Supply of HPLC, GC, UV spectrophotometers, dissolution testers, and more.

8. Data Loggers Supply and Cold Chain Monitoring Solutions

Temperature, humidity, pressure, and multi-parameter data loggers for monitoring. Real-time monitoring systems for cleanrooms, warehouses, and cold chains. Validation and monitoring of cold storage, refrigerators, and transportation.

9. Packaging Materials Supply (Primary) and (Secondary)

Bottles, vials, ampoules, blister packs, and sterile packaging components. Cartons, labels, leaflets, and tamper-evident packaging.

10. Packaging Line Equipment

Blistering machines, filling lines, labeling machines, and sealing equipment.

11. Manufacturing Equipment Supply

Granulators, mixers, tablet presses, capsule fillers, and sterilization equipment.

12. Engineering Spare Parts Supply

OEM and compatible spare parts for pharmaceutical machinery and utilities.

13. Utility Systems Supply

Boilers, chillers, compressed air systems, purified water (PW), and WFI systems.

14. Facility Rehabilitation & Upgrades

Renovation and modernization of pharmaceutical facilities to meet GMP.

15. GMP Consultancy Services

Expert advisory for compliance with WHO, FDA, EMA, and other regulations.

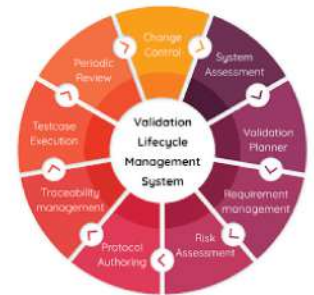

16. Quality Management System (QMS) Establishment

Development and implementation of SOPs, quality manuals, and documentation.

17. Validation Services (Full Cycle)

Process, cleaning, and computerized system validation. Equipment Qualification (DQ / IQ / OQ / PQ), Installation and operational qualification of equipment and systems. HVAC Validation, Airflow, temperature mapping, and cleanroom performance validation. Temperature Mapping Studies, Mapping of warehouses, cold rooms, incubators, and transport systems. Risk Assessment & GAP Analysis. Identifying compliance gaps and recommending corrective actions.

18. Medical Device Manufacturing Support

Support for design, production, and compliance of medical devices.

19. Waste Management Solutions

Medical and pharmaceutical waste systems, including incineration systems.

20. Automation & Digitalization Solutions

SCADA, BMS, and digital transformation for pharma facilities.

21. Energy Efficiency & Sustainability Solutions

Optimizing energy usage and implementing eco-friendly systems.

22. Custom Engineering Solutions

Tailored systems and equipment based on client requirements.

Why Choose TLG ?

- *End-to-end solutions: From design and supply to validation and compliance.*
- *Regulatory expertise: GMP, WHO, FDA, EMA compliant services.*
- *Integrated approach: Engineering + quality + validation in one place.*
- *Reliable sourcing: Complete supply of materials, equipment, and instruments.*
- *Strong validation capability: Full lifecycle qualification and risk-based approach.*
- *Single partner advantage: One point of contact, faster and smoother execution.*

EMA

EUROPEAN MEDICINES AGENCY

Our Partners

TeraLink Global Company (TLG) collaborates with trusted global partners to deliver high-quality, compliant, and innovative solutions across the pharmaceutical and medical device sectors.

- **Certified Manufacturers:**

Approved suppliers of Reference Standards, Certified Chemicals and packaging materials ensuring quality and regulatory compliance.

- **Engineering Technology Providers:**

Leading companies in laboratory instruments, cleanroom solutions and automation devices (HVAC, WFI, utilities).

- **Logistics & Cold Chain Providers:**

Reliable partners ensuring safe storage and transportation of sensitive products.

- **Validation & Compliance Experts:**

Partners supporting GMP, FDA, EMA compliance and validation standards. Together, our partnerships enable us to deliver integrated, reliable, and world-class solutions to our clients.
